Applicant: Flores et al.  
Appl. No.: 10/564,466  
International Filing Date: July 19, 2004  
Title: REVERSIBLY IMMORTALISED OLFACTORY ENSHEATHING GLIA AND THEIR  
USE TO PROMOTE NEURON REGENERATION  
Attorney Docket No.: 14829-003US FUSP 188389  
Pub. No.: US 2007/0134213 A1  
Pub. Date: June 14, 2007

This is a decision on the request for a corrected patent application publication under  
37 CFR 1.221(b), received on July 12, 2007, for the above-identified application

The request is DISMISSED.

Applicant requests that the application be republished because the patent application publication contains a material error on the front page of the application wherein six of the inventors were omitted.

37 CFR 1.221 (b) is applicable "only when the Office makes a material mistake which is apparent from Office records.... Any request for a corrected publication or revised patent application publication other than provided as provided in paragraph (a) of this section must be filed within two months from the date of the patent application publication. This period is not extendable." A material mistake must affect the public's ability to appreciate the technical disclosure of the patent application publication, to determine the scope of the patent application publication, or to determine the scope of the provisional rights that an applicant may seek to enforce upon issuance of a patent.

The omission of an inventor's name and residence do not affect the understanding of the application. The mistakes do not affect the public's ability to appreciate the technical disclosure of the patent application publication, or determine the scope of the patent application publication or determine the scope of the provisional rights that an applicant may seek to enforce upon issuance of a patent.

---

<sup>1</sup>Changes to Implement Eighteen-Month Publication of Patent Applications, 65 FR 57023, 57038 (Sept. 20, 2000), 1239, Off. Gaz. Pat. Office Notices 63, 75 (Oct. 10, 2000) (final rule).

On March 15, 2007, a Filing Receipt was mailed by the Office, which improperly listed the inventive entity. To avoid this type of problem in the future, applicants' representative should review the Filing Receipt and make a request for a Corrected Filing Receipt.

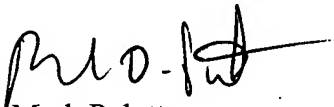

The applicant is advised that a "request for republication of an application previously published" may be filed under 37 CFR 1.221(a). Such a request for republication "must include a copy of the application compliance with the Office's electronic filing system requirements and be accompanied by the publication fee set forth in § 1.18(d) and the processing fee set forth in § 1.17(i)." If the request for republication does not comply with the electronic filing system requirements, the republication will not take place and the publication fee set forth in § 1.18(d) will be refunded. The processing fee will be retained.

Any request for republication under 37 CFR 1.221(a), must be submitted via the EFS system, as a "Pre-Grant Publication" and questions or request for reconsideration of the decision, should be addressed as follows:

By mail to: Mail Stop PGPUB  
Commissioner for Patents  
P.O. Box 1450  
Alexandria, Va. 22313-1450
